PROFESSOR KOGIELEUM NAIDOO

Professor Kogieleum Naidoo serves as both Deputy Director and Head of the Treatment Research Programme at CAPRISA. Her research on TB-HIV integration has been influential in defining policies, guidelines, and treatment strategies. She has authored 170 peer-reviewed publications and co-authored chapters in several books. Her research has been supported by an impressive list of both national and international funders and collaborators. She is both a member of the Academy of Science of South Africa and a Fellow of the Royal Society of South Africa. She recently received an award for Outstanding Female Scientist from The European and Developing Countries Clinical Trials Partnership.

ABOUT THE WEBINAR

This webinar will cover the significant progress made in the area of TB regimens for treatment and prevention as well as present the rationale for new TB treatment and prevention strategies. This webinar will also review drugs undergoing clinical development as well as introduce the updated pipelines for drug development and clinical trials of new TB regimen. Additionally, this webinar will provide insight into the research conducted by the CAPRISA TB/HIV Treatment Programme.
